Permaculture Training · Regenerative Agriculture · Community Workshops

Houston, Texas | hi@wildflowerforestperfume.com | (832) 844-0494

www.wildflowersforest.com

CORE COMPETENCIES

- Permaculture Design Workshops – Hands-on training covering soil health, water systems, plant guilds, companion planting, and garden design.
- Regenerative Gardening Hands on or Virtual education – Classes for schools, nonprofits, community groups, and educational institutions on herbs, wildflowers, and sustainable growing.
- Pollinator & Habitat Restoration Programs – Curriculum and on-site training aligned with conservation and ecological improvement goals.
- Custom Educational Programs – Tailored workshops for municipal agencies, veterans groups, youth programs, and environmental initiatives.
- Nonprofit Support – Capabilities aligned with your 501(c)(3) mission for grants, partnerships, and community impact.

DIFFERENTIATORS

- Woman-owned business with deep experience in regenerative farming and herbal education.
- Workshops integrate art, nature, healing, and science for high engagement and retention.
- Mobile, on-site, or virtual instruction available.
- Curriculum aligns with grant requirements for public health, environment, youth enrichment, and sustainability education.
- Ability to provide supplies, materials, and take-home kits.
- Unique combination of education + wellness + regenerative agriculture — rarely offered by a single vendor.
